

Sandalwood Village

Fall 2017 Update

Welcome to Autumn! It was a great summer and we hope you enjoyed it as much as we did. There seemed to be lots of hustle and bustle in the Village so we know everyone had their fair share of house guests – but that's what it's all about – sharing our beautiful slice of heaven here on Cape Cod.

We'd like to give you an update on some Village projects that you may have been wondering about.

- The sink hole on West Way has been repaired. It was caused by a rotted tree trunk under the road.
- Some clogged drains have been cleared.
- The split rail fence that we've had planned will be installed at the entrance as well as loam will be added, now that the construction has been completed on Amos Landing – this will be done within the next few weeks.
- A swale on the corner of North Way and Amos Landing has been repaired and will now stop the water from running into a resident's driveway.
- A leak in the irrigation system at the front entrance is scheduled for repair.
- We've scheduled some tree trimming before the winter season so that our roads will be approved by the Town for plowing.

Thanks to all of our good neighbors who keep us informed when things go wrong!

We are still investigating cost effective alternatives for additional street lighting and will communicate the results as soon as we have all of the information and relevant costs. We can then make a decision on how to move forward with this issue.

If you have any basketball hoops in the cul-de-sacs these will need to be removed asap so that the snow plows can do their jobs. If we need to remove them we will bill the owner for any related costs.

We want to wish all of our neighbors who will be heading south for the winter a wonderful, safe and healthy season. For those of you remaining here we hope to see you around!
