Eric gave a brief overview of our financial situation. We have about \$275,000 in the coffers, understanding we will need this money when our roads need to be repaved. We have a very low delinquent rate on dues.

Gary Perkins, Bill Burke, and Chris Boyd requested copies of the 2018 BC budget for review.

Reserved Areas, discussion included access for emergency vehicles. Eileen Tye suggested she may be willing to donate the end of her dock with stairs adjacent to the reserved area. Eric to investigate feasibility and liability concerns. Some erosion reported at reserved areas, Eric to investigate. Diane Molloy and Paul Kenny suggested looking into a seashell and cage erosion control system. Mary Oleksak offered to do some research on this system.

Speeding cars were brought up as a problem and danger in our Village. Chris Boyd requested a speed table on Bright Coves Way, he checked with his Wife before finalizing the request, smart.

Another great suggestion...Stop bars at all stop signs.

We had a discussion about the brush pick up program and the cost of it. We decided to let the Peninsula Council decide if the program should be continued.

There is an unsightly pile of firewood at the home on the corner of Helmsman and Waterway. Eric to request ARC send a letter to homeowner.

Save Popponesset Bay. A motion was made by Eileen Tye to donate \$7,500 to SPB. Motion was seconded by Marlene Perkins and unanimously approved.

The attendees are still hoping for a Bright Coves Directory. Eric to follow up again with Peninsula Council.
