

ARCHITECTURAL REVIEW COMMITTEE
APPENDIX "C"

APPENDIX C. APPROVED COLOR LIST

As referenced in the ARC Guidelines
III. Building Design Specifications; E. Colors

1. Emphasize **monochromatic natural gray color stains** (use stains wherever possible) which relate to the coastal and wooded landscape.
Bright, saturated urban hues are NOT appropriate.
Natural weathered shingles must be treated with a weathering stain/bleaching oil.
Garage doors should be the same color as the body of the house.
2. **Trim color** should generally be the same as the body of the house, or where architecturally appropriate, soft white or off-white trim colors.

Currently, the approved manufacturers are Benjamin Moore and Sherwin Williams. The approved colors apply to all Villages except The Mews Village, which has its own requirements as set forth in The Guide to the Mews Village.

Please note that a Permit from the ARC is required before beginning any exterior painting.

Following are currently approved colors for houses, trims, and doors.
